

August 2019

Dear Parent/Carer,

The Green Team at St Matthew's have been looking at ways in which we can protect our environment and create a greener future for our community. Alongside our litter campaign we are going to run a paperless system for communication with parents.

St Matthew's RC High School will be moving to an email system for communication with parents and pupils from the 2nd September 2019.

Going forward you will receive all communications via email with the exception of school reports.

Some of the environmental impact of using paper in our school:

- Cutting trees that release oxygen for our environment
- Energy usage and release of harmful gases in pulp and paper industry
- Fuel consumption by air, rail, and road transport distributing reams of paper
- Fuel consumption sending paper documents via ground & air courier services
- Manufacturing printers, ink and toner cartridges

Some of the benefits of moving to a paperless system:

- Our environment - economical and ecological benefit with paperless productivity
- Faster communication with parents
- Record of communication for parents
- Cost effective – so more money can be spent on curriculum needs

Please complete the attached slip and return to your child's Form Tutor on the 3rd of September 2019.

If you have any questions please do not hesitate to contact me.

Kind Regards

Helena Kelly
Operational School Business Manager
